Information Brochure

**Dadhichi
College of
Pharmacy**

WHY CHOOSE DADHICHI PHARMACY

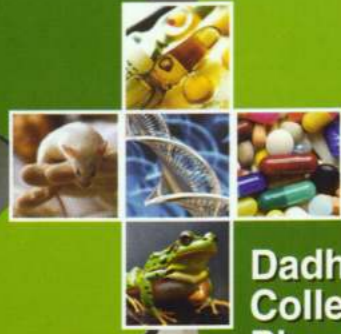

A lively and vibrant environment in the campus contributes to wholesome development of the students. The Institute nurtures itself in the laps of lush green environment that speaks about the unstinted devotion of this organization, to figure out the destinies of its pupils. Away from the clamour and din of the city it provides a perfect setting to unravel the inherent traits of the individual attributes. After its venture in 2004-2005 Dadhichi College of Pharmacy (DCP) has made its presence felt in the pharmaceutical arena till date.

The college provides excellent teaching facilities for student and prepares them to take up the examination at the end of each session. Regular industrial interface with pharma industry ensures that the students are adequately absorbed in top pharma companies before the completion of their technical course. Well equipped Laboratories, with Wi-Fi facility and a well stacked Library are its greatest strength apart from it's teaching faculty.

Tablespoonful Ingenuity...

Ingenuity and aesthetics in science in the essence of drug discovery in our labs. "From laboratory bench to patient bed side" is the ultimate aim of the young minds.

Dadhichi College of Pharmacy

Nurturing Young minds for a Better tomorrow....

Youth Pharma Festival is one of the flagship programs initiated by Dadhichi College of Pharmacy envisaged to encourage youth pharmacy and healthcare professionals for their contribution, collaboration and playing a great role towards Nation Building. This platform would bring together young minds from various sectors of society with their brilliant ideas on innovation, start-up, motivation and research, which can be collaborated to make a positive impact on upgrading skills, competency and capacity building.
